AVANT

Avant is a stylistically forward door glass choice, yet it balances characteristics of European architecture and Old World styling. A black chrome finish softly curves throughout a textured glass surface accented with clear beveled glass clusters.

550

Combine aesthetics and performance with our 550 patio door. Its double or triple sealed units provide superior energy efficiency and an unmatched level of comfort.

URBANIA

Urbania stands out for its unparalleled energy performance. This patio door will ensure your comfort thanks to its innovative thermal breaks and weather stripping. With its all-aluminum construction, it is a guarantee of durability and elegance.

LOFT

A patio door that brings the outside in. Its lift mechanism allows for effortless opening of oversized glass panels. Safe, durable, maintenance-free and efficient, Loft will redefine your living space.

ELEMENT

Bring character to your space with our high-end patio doors. The impeccable finish of its aluminum cladding is what sets the Element door apart. This door comes in a wide range of colours, so you can match it to your décor at no additional charge.

IMAGINE

The Imagine provides all the charm of a "garden door" without the inconvenience of a swinging door. Made of a high quality structure, it offers an exceptional level of efficiency. Its frame is distinguished by the rigidity of wood combined with the durability of PVC.

BUCKINGHAM

The Buckingham patio door is made from the most advanced vinyl, reinforced with a wood frame. Our wood buck frame is economical, durable and easy to install. The Buckingham door offers superior air tightness and withstands high winds.

2900 HYBRID

The best of both worlds! The 2900 hybrid patio door offers impressive thermal and structural advantages. Enjoy reduced maintenance with engineered quality, styling, and beauty. Choose the 2900 hybrid for its durability and wide range of configurations.

2900

The 2900 patio door offers superior thermal and structural advantages. It features many configuration options and a level of performance unmatched in aluminum sliding doors. Enjoy low maintenance with the quality, style and beauty of aluminum.

BRIGHTON

The Brighton patio door is a robust value-priced patio door, using the most advanced vinyl on the market. The high quality resins used are unmatched in terms of durability. The door comes disassembled for easy transportation and assembly.

KENT

One of our most popular products, the Kent patio door combines exceptional performance with elegance. Made from the highest quality materials, the Kent was designed to offer a high degree of visual appeal and to operate smoothly.

VICTORIAN

The Victorian patio door is made from high quality resin and is ideal for new construction. The multi-chambered, all-vinyl frame is easy to install and designed to withstand high winds. The door offers a wide range of security, colour and finishing choices.

WINDSOR

The Windsor patio door represents excellent value for money. It is made from the most advanced vinyl on the market, which is unmatched for strength and freedom from wear. Ships already assembled.

650

The 650 patio door combines the durability of PVC with the strength of wood inserts in the jambs. This ready-to-assemble door is easy to carry and set up.

STUDIO

The Studio patio door exceeds industry performance standards. Ideal for high-rise projects, this door is built to withstand the weather and high winds at the top. Studio is a flexible aluminum patio door designed for architectural uses with multiple customization options.

INTEGRATED BLINDS

22"X36"

22"X48"

22"X64"

Integrated aluminum (maintenance free) mini-blinds are a time-tested classic. Discretion is an easy to operate and highly durable product. It is a great way to let light in during the day while being capable of ensuring privacy at any moment.

Enclosed blinds mean no dust or dirt, no kinks or dents, and no banging of the blinds when you open and close your door. A cordless design is a safer solution when children or pets are in the house. Light-Touch blinds are designed and engineered to be used day in and day out. We've tested them for more door slamming (50,000 times) than your average household use. The glass seal is warranted for 20 years.

Between the glass and maintenance-free

- The single operator lets you raise, lower or tilt the blinds in an easy, slight movement.
- Blinds adjust for complete light block, and the privacy channels on each side eliminate light gaps when the blinds are closed.
- More privacy at night and increased sense of security.
- Available in Tan or White blinds.

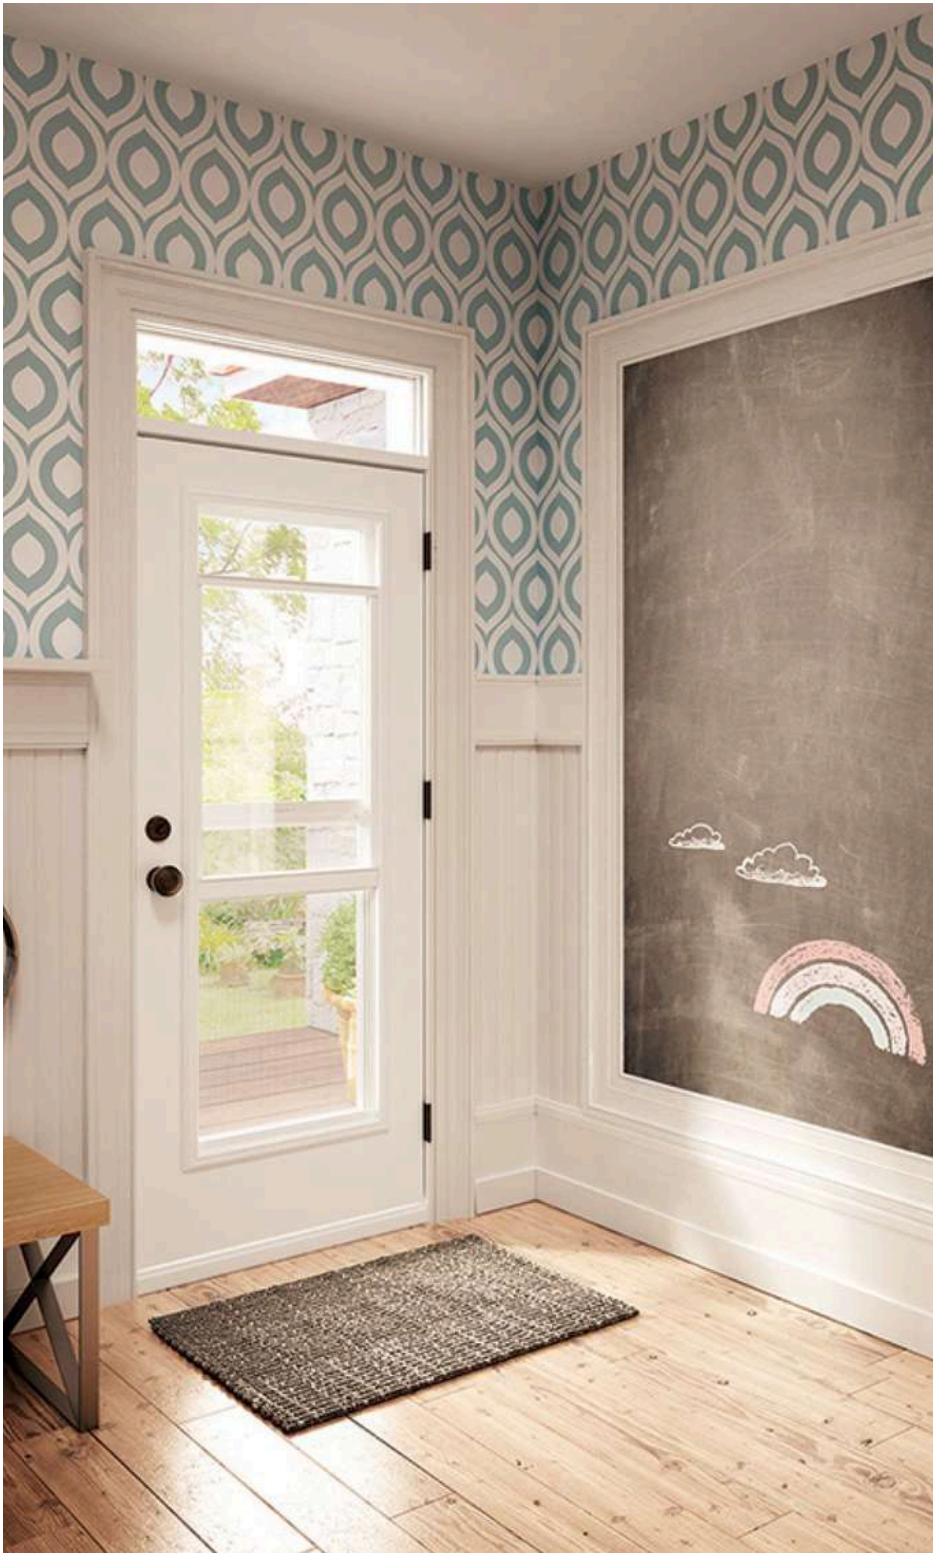

Uniform colour in components provides a clean look

Simple easy blind control

VENTING INSERTS (ELEVATION)

Use our Vents for a boost fresh air in workshops, garages, or your home. Ten adjustments allow you to control the flow of air. A durable UV-resistant molded frame and removable screen ease cleaning.

22"X64"

22"X36"

22"X48"

MULTI-POINT LOCK SYSTEM

As soon as the door is pulled shut, the automatic latchbolts instantly throw 20mm and secure themselves to prevent being forced back. By turning the key or the knob, the deadbolt engages and locks the top and bottom latchbolts, creating a three-deadbolt locking system.

- 3-point, one-piece locking system for 6'8" and 8' doors
- Heavy-duty mortise construction with reinforced lever return spring system
- Locking via US-cylinder with a 90° turn of the key or thumb-turn
- No handle lifting required to engage locking points
- Top and bottom automatic latchbolts with projection from 10 to 20 mm:
 - Provide security against forced entry
 - Help prevent air infiltration through the gasket
 - Protect the door panel from warping
